

Raymond Terrace Place Plan

Have your say and get involved!

We're developing a place plan to guide the future of Raymond Terrace with confidence. The Raymond Terrace Place Plan will set a clear, community-led road map for how the town grows over the next 15-20 years.

Why Raymond Terrace?

Raymond Terrace continues to evolve. Since the adoption of the Raymond Terrace and Heatherbrae Strategy in 2015, there have been major changes in infrastructure investment, housing reforms and shifting community priorities.

The new place plan will respond to these changes and guide the future with a clear vision and practical actions.

Most importantly, it will be shaped by you, our local community, based on community values and priorities.

Vision: A proud riverside centre where people feel safe, connected and confident about the future.

How to have your say and get involved

Whether you're a local business, service provider, community group, or local community member, your insights are key.

Share your feedback by 6 April 2026!
